Consultation Newsletter Wolastoqey Nation

Nov/Dec
2017
Issue 6

WNNB Office

The Wolastoqey Nation in New Brunswick (WNNB) provides technical advice to Wolastoqey leadership and Resource Development Consultation Coordinators (RDCC's) in resource development consultation matters that related to the implementation and exercise of Wolastoqey constitutionally protected rights. WNNB also acts to protect and promote traditional lands, ceremony, cultural practices, and language. WNNB consists of:

- Consultation Director: Shyla O'Donnell (Shyla.Odonnell@wtci-nb.ca)
- Administrative Assistant: Brett Collins (admin@wtci-nb.ca)
- Ethnohistorian: Dr. Jason Hall (Jason.Hall@wtci-nb.ca)
- GIS Technician: Thomas Herbreteau (Thomas.Herbreteau@wtci-nb.ca)
- Forestry Advisor: Angie Paul (Angie.Paul@wtci-nb.ca)
- Environmental Impact Assessment (EIA) Coordinator: Deana Sappier (Deana.Sappier@wtci-nb.ca)
- HR/Finance: Sandra Polchies (Sandra.Polchies@wtci-nb.ca)
- Fisheries Biologist: Dr. Colin Curry (Colin.Curry@wtci-nb.ca)
- Atlantic Link Liaison: Stone Bear (Stone.Bear@wtci-nb.ca)

WNNB now has a facebook page called: Wolastoqey Nation in New Brunswick

<https://www.facebook.com/groups/676375235894529/>

Strategic Rights Plan Study – Community Survey

Community surveyors are currently delivering and facilitating the Strategic Rights Plan surveys with community members until mid-December. The intent of the survey is to help determine:

- How many members are currently engaged in Traditional Use;
- The extent of harvest and consumption (or other use) of items gathered through Traditional Use;
- The extent to which individuals and families are no longer able to engage or benefit from Traditional Use.

An example question: on average, over the past two years, how often have you had a meal of any of the following traditional foods? (list of foods will include: moose, deer, hare/rabbit, duck, bear, etc.).

Off reserve members who participated in the online survey had a chance to win one of five \$100 dollar gift cards. Winners were drawn on Dec. 8th. To see if you have won, please check the email you provided.

For more information on the SRP, visit our video on YouTube:

Cultural / Craft Trees – Community Interest?

During a recent project, a number of trees were identified in a Right of Way that could be used for cultural craft-making purposes (e.g., white and yellow birch). The trees were selectively cut and given to identified artists for cultural purposes.

If you would like more information on how to potentially receive cultural/speciality trees, please contact your community RDCC:

Reporting a Spill

Environment and Climate Change Canada (ECCC) enforces several Acts, including the Species at Risk Act, the Canadian Environmental Protection Act (Act aims to eliminate certain toxic substances from the Canadian environment) and the Fisheries Act (prohibits the deposit of deleterious (degrading) substances in waters frequented by fish).

For example:

- In 2013, the officers were noticed about a number of migratory birds found dead (total of 7500 birds died) on the Canaport LNG facility in Saint John, NB. Canaport LNG was ordered to pay a penalty of \$750K after pleading guilty to the charges under the Migratory Birds Convention Act and the Species at Risk Act.
- Between 2013-2014, Twin Rivers Paper Company were charged with three spills that impacted the Madawaska and Saint John Rivers. The company was fined \$320K after pleading guilty to charges under the Fisheries Act and the Pulp and Paper Effluent Regulations.

If you suspect an offence or want to report a spill, the number is:

1-800-565-1633

The Sisson Project – Federal Permits

Environment and Climate Change Canada (ECCC) is leading the federal government's consultation efforts required as part of the Sisson Project's application to amend the Metal Mining Effluent Regulation (MMER). The Sisson Project is applying to add streams in the Sisson mine project area to Schedule 2 of the MMER, which requires

- a submission of an Assessment of Tailings Management Alternatives (ATMA), and
- a Fish Habitat Offsetting Plan.

WNNB has hired an environmental consultant (MSES Inc.) to review the technical documents and provide comments. Additionally, MSES will be attending some community meetings (week of December 11-15, 2017) to explain the technical work and get community feedback on potential fish offsets (e.g., do communities know of existing barriers?).

Assessment of Tailings Management Alternatives (ATMA)

MSES identified several ways in which the company did not conduct a comprehensive, detailed and transparent comparison of tailings management alternatives in its ATMA (as required by guidelines).

Several alternative design and management options for the tailings facility and open pit were removed in the pre-screening stage without adequate reasoning. This left analysis to be completed on two options that mainly differ only on their locations.

The company did not explain why it didn't consider different tailings disposal methods, including increased back-filling of the open pit or water treatment options.

The company has not collected sufficient baseline environmental or traditional use data for one of the tailings locations it considered in the process.

Fish Habitat Offsetting Plan

The Draft Fish Habitat Offsetting Plan (DFHOP) submitted by the company assessed:

1. The loss of fish habitat and fisheries productivity in the streams that will be impacted by the construction of the tailings facility
2. The potential for an increase in fisheries productivity that will result from the proposed offset – removal of a partial barrier at Nashwaak Lake
3. Discussed the net gain in fisheries productivity they expect from removal of the partial barrier

However, the habitat loss assessment for the streams to be destroyed (in the Sisson are – e.g., Bird Brook) is incomplete and appears to minimize impacts to fish habitat.

Additionally, the improved access to habitat at Naskwaak Lake will apply mainly to a single species of fish (alewife). Therefore, the company should likely consider additional offsets, a more effective offset or a habitat banking program.

Amendments to Schedule 2 of the MMER typically takes 18-24 months from when consultation ends (we have yet to start consultation).

The company can not construct the tailings facility until it has received the permit from the federal government.

Federal Environmental Reviews

The federal government is currently reviewing the Canadian Environmental Assessment Act (CEAA), the National Energy Board (NEB), the Fisheries Act and the Navigation Protection Act.

To review the Acts, panels were created for the CEAA and NEB process, whereas the Fisheries Act and the Navigation Protection Act had Standing Committees. The Wolastoqey submitted comments on all four acts, both at the initial stage of the process and in response to Canada's Discussion Paper on how it was going to implement "what it heard."

New legislation for the federal reviews is likely to come out early in 2018, which will be followed by regulation and policy development. Additionally, the Assembly of First Nations has been heavily involved in the federal reviews and has released a number of resolutions to address the process (e.g., Resolution no. 21/2017: Respecting Inherent Rights-Based Fisheries in Parallel with the Review of Canada's Fisheries Act).

Community Update - SMFN

The Wolastoqey communities are currently involved in conversations that may result in the ability of Wolastoqey members to harvest plants and trees from sites prior to any land clearing for construction projects. To better facilitate these conversations, WNNB is putting together a list of plant and tree species that may be of interest to community members for harvesting. If you would like more information, or would like to contribute to the list, please contact SMFN's Resource Development Consultation Coordinator, Tim Plant.

Interested in Environmental Field Monitoring?

The Wolastoqey Nation is looking to create a database of potential environmental field monitors, archaeological field monitors and persons interested in working in either field.

If you would like your resume to be included in the database, please send a copy of your resume to your community RDCC (see below for names). Please indicate in a general cover letter your level of experience and if you are willing to work throughout New Brunswick (or if you would like to stay within a certain region).

Contact Information:

If you have any questions about the content of this newsletter and would like more information, please contact your community RDCC.

COMMUNITY MEETING

When: 6pm – 8pm Friday, Dec 15th 2017

Where: SMFN Education Dept.
150 Cliffe Street (3rd floor)

Info: As you may know, the Sisson Mine project has been approved by government both provincially and federally. Along with the approvals, the project also needs to meet the conditions of the approvals and obtain various permits and regulatory amendments.

Management and Solutions in Environmental Science (MSES) is an environmental consulting group that was hired by the Wolastoqey Nation in New Brunswick (WNNB) to conduct reviews on two of Sisson Mine's reports: the Alternative Tailings Management Assessment, and the Draft Fish Habitat Offsetting Plan. Megan Thompson of MSES will be coming to the community to discuss the results of their review and to collect feedback and suggestions from community members on fish habitat offsetting.

Refreshments and door prizes available. All ages welcome.

For more information on the Sisson Mine project, please visit this link: <http://sho.co/19QEP>. The video was made by Wolastoqey members and summarizes the timeline events of the project to date, as well as the outcomes of Wolastoqey involvement thus far.

For additional information or inquiries, please contact SMFN's Resource Development Consultation Coordinator, Tim Plant, at 459-2200 ext. 126 (office) or timothyplant@smfn.ca.

Social Workers

Competition # MCFS

The Mi'gmaq Child and Family Services Agency of the Province of New Brunswick Inc. is searching for Social Workers with a passion to enhance the lives of aboriginal children and their families. Positions will generally be based throughout member communities located in north and eastern NB. Locations will be determined in consideration of successful candidate's preferences and Agency needs.

Community Child Protection/Family Enhancement Workers: deliver professional services and programs that focus on child protection, family enhancement and adult protection.

Community Prevention Field Worker: create public awareness, build community capacity and provide education and training in order to keep children and youth safely in their family homes.

Foster Home Field Worker: ensure Foster Homes and Foster Parents are qualified, able and committed to providing children/youth in their care with a healthy, safe and nurturing environment at all times.

Child in Care Field Worker: safeguards the health, safety and wellbeing of children/youth in care.

Intake/Investigation Workers: deliver professional intake and investigation service in response to reports of abuse and or neglect.

Qualification Requirements: A bachelor degree in Social Work and a registered member in good standing of the NBASW. Understanding and appreciation of Mi'gmaq culture, values, and socio-economic conditions are also requirements of the position. Travel throughout assigned communities can be expected for Field Worker positions.

Compensation: \$2,242.00 to \$2,675.00 bi-weekly and a 4.8% adjustment for those working in protection as well as competitive pension and benefit programs.

Those interested in applying are asked to submit a resume identifying position(s) of interest on or before December 30, 2017, to karen.atwin9@gmail.com

SNOW REMOVAL FOR COMMUNITY MEMBERS

St. Mary's provides snow removal (plowing) for all seniors (60+) on reserve. However, there is only one designated plow truck and over 80 driveways that are required to be plowed. We would ask for your understanding and patience for all driveways to be cleared. Also, in order for driveways to be completely cleared, any vehicles have to be moved from the driveway onto the street until the plowing is finished. If vehicles are not moved, the driveway cannot be completely plowed. Also, please note that plowing does not start until the end of snowstorm. Seniors have first priority when it comes to snow removal.

All other driveways on reserve (for non-seniors) are also plowed, however, there is only one designated vehicle to do those driveways. We currently have approximately 325 total driveways. This does cause a delay due to the amount of time involved to clear everyone's. Also, if there is a heavy snowfall, this will increase the time to plow each driveway. In addition, if people want their driveway fully cleared, they are responsible for moving their car onto the road while their driveway is being plowed. Taking into account the time involved, those with large driveways will not be completely plowed, however, a "pass" will be done at all homes that will allow a minimum of one vehicle to freely come in and out of the driveway. Further widening or lengthening of driveways will be the sole responsible of the home owner/occupant.

As we have in previous years, we are asking everyone to place reflectors, or some sort of marker, on fences, retaining walls or other structures that may be difficult to see. If the operator cannot see something because it is covered in snow, they will not know it is there.

We are aware and understand that some community members do not want to wait to be plowed and hire someone else to clear their driveway. Please be advised the Band is not responsible for any damage that may unintentionally occur to property/lawns/driveways as a result of snow removal. If you do NOT want CPW (public works) to plow your driveway, please call the band hall and leave your name and address.

We thank you for your patience and understanding with this matter. If there are further concerns, please contact Jayme Johnson, Director of Operations at 458-9511.

SNOW REMOVAL/PARKING

Please ensure **all** vehicles are removed from the road during and after a snow storm. It is very difficult to fully clear the road when vehicles are parked on the roadway. Vehicles that are not removed may be towed, at the owner's expense. If you have vehicles that require a place to be parked and cannot be parked on your property, please contact that band hall and we will try to assist with making arrangements.

OVERNIGHT PARKING

Please be advised that there is to be absolutely **NO OVERNIGHT PARKING** at the Culture Centre parking lot. Vehicles that are not removed may be towed, at the owner's expense. Again, if you need to park somewhere, please contact that band hall and we will try to assist with making arrangements.

DOG TETHERING LAW

A request to the Community to please be considerate of your neighbours and do not allow your dog(s) to bark outside for extended periods of time. It can be very disruptive and a major nuisance to those around you. Just a reminder, there is a tethering law in New Brunswick and dog owners cannot tie their dogs between 11:00pm and 6:00am. Those who do, can face a fine. If you find yourself in a situation where you are unable to look after your dog or no longer wish to have the dog and want to surrender your dog to the SPCA, please contact the Band Hall for assistance with this.

Job Opportunity St. Mary's Retail Sales Store Manager/ Starbucks

Now Brewing – Future Leaders! #tobeapartner

Starbucks is known for developing extraordinary leaders who drive business success by doing the right thing for partners (employees), customers and communities – globally. As a Starbucks leader you are driven by a deep sense of purpose. You are aspirational - never a bystander. You take action to make a positive difference every day, and you inspire others to do the same.

Our Store Managers bring the Starbucks experience to life by managing store operations, driving financial success, building great teams, and building a meeting place in their communities. They delight and uplift customers through a human connection. Their work goes beyond a perfectly made beverage; it's about human connection. They enjoy being able to achieve these aspirations autonomously, while leveraging our world class brand and business practices.

“Starbucks best store managers are coaches, bosses, marketers, entrepreneurs, accountants, community ambassadors, and merchants all at once. They are optimistic problem solvers who run their stores creatively yet analytically, calling upon passion and intelligence to drive customer traffic, partner loyalty, and profit. The best managers take their jobs personally, treating the store as if it is their very own. – Howard Schultz, Chairman, Starbucks Coffee Company

We will enable you, leveraging your retail experience, to autonomously:

Grow a successful business: drive sales leveraging your business acumen, efficiency and problem-solving skills

Nurture talent & lead a team: engage the hearts and minds of your team and develop their skills so that they realize their personal best, both as individuals and as thriving teams

Inspire others: become a dynamic brand ambassador dedicated to driving and achieving results through your team

Impact your Community: integrate your business with the community to create better moments in peoples' lives, from our partners to our customers, communities and planet

We'd love to hear from people with:

- *Minimum of 5 years retail / customer service management experience*
- *Strong organizational, interpersonal and problem-solving skills*
- *Entrepreneurial mentality with experience in a sales focused environment*
- *Strong leadership skills and the ability to coach and mentor team partners with professional maturity*
- *Degree in Business Administration Asset*
- *Must provide 3 work related references with resume*

Requirements:

- *Legal documentation establishing your identity and eligibility to be legally employed in the country in which you apply.*
- *Ability to work full time (the work regularly demands in excess of 40 hours per week) including variable hours including early mornings, evenings, weekends and/or holidays*

Let us give you the opportunity to grow as an individual, to build lasting relationships and make an impact in a place where people, quality and value mean everything.

If Interested please send your resume to:

Lisa Wilson
Director of Human Resources
St. Mary's First Nation
150 Cliffe Street, 2nd Floor
Fredericton, NB.
E3A 2T1
Fax (506) 472-6220
Email lisawilson@smfn.ca

Deadline for applications is January 4th, 2017 at 4:00 pm.

PERSONAL PROPERTY INSURANCE-TENANTS INSURANCE

Although some community members may feel their belongings are not worth insuring, you may be surprised to learn how much it **can** cost to replace **everything** in the event of a loss.

As a result of fire losses within St. Mary's community, it is important to be aware of the following information.

Presently, St. Mary's policy **only covers** the minimal standard amount for a home. **NO** personal belongings will be covered.

If you have done any upgrades to your home, they will **NOT** be covered or replaced. This includes **fences, sheds, and garages**.

Replacement of contents and upgrades will be up to the homeowner.

Tenants insurance can cover all or a portion of loss, such as furniture, electronics, computer, clothes and other personal items.

The **property insurance** for St. Mary's is provided by **Membertou/Cooke Insurance**. It is up to you to choose who provides contents insurance, however, Membertou has provided the attached information to help when making your decision.

If you would like to obtain a quote, please call Melissa Pretty of Membertou/Cooke Insurance at 1-800-566-5666 ext: 3261. If Melissa is not available, please use extension 3750 and you will speak with the next available personal lines broker.

There will be no yoga through December, classes will resume in the new year (see Schedule below)

If you wish to practice with me during this time, I will be teaching a class Friday mornings 10-1130 at the Brookside Wellness Center.

Yin Yoga – Meditation

4 Weeks, Beginner friendly Sessions

Sunday, January 7th 7-8 pm

Sunday, January 14th 7-8 pm

Sunday, January 21st 7-8 pm

Sunday, January 28th 7-8 pm

Classes offered by Sara Fraser at the St. Mary's Culture Center.

For More information, contact Sara at 470-7248 or frasersara83@yahoo.ca
