COMMUNITY CRIBBAGE TOURNAMENT

Sunday, August 13th, 2017

At SMEC

FREE Registration

Registration at 11:00

Play starts at 12:00

Mixed Doubles – Blind Draw

Male & Female High Hand

GIFT CARDS SPONSORED BY SMEC

DOUBLES CRIBBAGE TOURNAMENT

Grab your own partner and come play in a doubles crib tournament on **September 17th** at the SMEC

Cost is **\$20/player** with option to pay \$2 for high hand

Registration 9 – 10 am

Play begins 10:15

All money will be paid out in prizes

Each registration will receive a free night of bingo

Players can purchase a \$5 buffet breakfast from

9 – 10 am

OPEN TO ALL COMMUNITY MEMBERS!!!

Any questions or concerns call

Melanie @ 471-5189

Lisa @ 461-9215

Walter @ 447-8967

25 year old Zodiac Boat

2- 100 Yamahas four stroke engines, one engine is seized other engine hard to pull hasn't been started in a few years.

Boat needs new bladders and extensive work, electronics, cables ect

If interested? Starting bids at \$1000 boat is located in St Andrews Millcove RD

To be sold as is where is.

Leave Bid at front desk St. Mary's First Nation Band Office in care of AFS or call

ATLANTIC POLICY CONGRESS OF FIRST NATIONS CHIEFS SECRETARIAT

APC Employment Opportunity Administrative Assistant - (Housing and Infrastructure)

(Full Time Term Position until March 31st, 2018) (With possibility of renewal.)

Description: Provide administrative duties for the Housing and Infrastructure Team as well as other departments within APC in a professional and personable manner. In addition, important elements will include the organization and coordination of facilities, meetings and meeting preparation.

Who Can Apply: Applicants should possess a recognized diploma or certificate in office/administrative, management/assistance. A combination of comparable, relevant and recent education and experience will also be considered.

Experience: Applicants must have at least 3-5 years' experience working as an Administrative or Office Assistant and 1-3 years' experience working for a First Nation community or organization.

Abilities & Skills:

- Demonstrated proficiency in computer software such as Microsoft Word, PowerPoint, Excel, Email, Outlook, browsers, etc.
- Knowledge of First Nation communities and organizations in the region.
- Strong organization, communication, time management and writing skills.
- Strong office management skills.
- Demonstrated ability to work independently and in a team setting.
- Ability to speak Mi'kmaq or Maliseet would be an asset.
- Valid driver's license and reliable vehicle.

Essential Functions and Duties:

- Provide administrative support to the Housing and Infrastructure Dept.
- Updating contact lists
- Typing and editing of documents (ie, minutes)
- Booking meetings, sending memos, notifying members of meetings
- Creation and circulation of interoffice and regional memos via email/fax
- Faxing

- Establishing file management system, filing all correspondence/documents
- Packages and outgoing mail, incoming mail
- Reception - answering the phone, emails, messages (as backup only)
- Assist in making travel arrangements for program staff
- Assist with special projects and events as required.
- Work well independently as well as part of a team.

Salary: Depending on qualifications and experience (within APC salary grid).

Location: Cole Harbour, Dartmouth, Nova Scotia

Start date: As soon as possible until March 31, 2018 (with a possibility of renewal)

If you are interested and qualified and would like to become part of the APC team, please respond by email only in **Word or PDF format**, the following documents:

- a detailed cover letter explaining how you meet the position requirements and salary expectations (please quote **APC Competition #2017-07-06** on the cover letter); and subject line of your email.
- an updated resume;
- recent writing sample; and
- the names/contact information of three work related references.

Closing Date: August 17, 2017 at 4:30 p.m. (Atlantic Standard Time)

Email address: hr@apcfn.ca

No applications will be accepted beyond the closing deadline. Interviews will be held in Dartmouth, Nova Scotia. If all qualifications are equal, preference will be given to persons of Aboriginal ancestry. While we appreciate the interest of all applicants, only those applicants selected for an interview will be contacted. No phone calls please. No interview or relocation costs will be provided.

ATLANTIC POLICY CONGRESS
OF FIRST NATIONS CHIEFS SECRETARIAT

APC Employment Opportunity
Health Policy Analyst

(Full time term position, until March 31, 2018)

Description: The Atlantic Policy Congress of First Nations Chiefs is seeking a professional and highly skilled individual who will be responsible for conducting policy research and providing timely, accurate and relevant health policy advice to the Mi'kmaq, Maliseet and Innu/APC member Chiefs and band staff. The candidate should be a professionally trained individual with experience in dealing with First Nation health program and policy issues. The candidate should also have demonstrated experience in developing proposals/budgets and implementing work plans.

Who Can Apply: Applicants should possess a relevant post-secondary degree, diploma or certificate from a recognized post-secondary institution. Those having a combination of relevant education and work experience will also be considered.

Experience: Applicants must have at least three to five years recent experience working with First Nations, preferably in the areas of health policy research and development. A combination of comparable, relevant, and recent education and experience will also be considered. Applicants must also have a thorough understanding of First Nation Health care.

Abilities and Skills:

- Applicants should demonstrate excellent verbal and written communication and presentation skills, as well as a strong ability to manage multiple projects and priorities;
- Applicants should be highly organized and able to work with minimal supervision to meet deadlines;
- Applicants should possess excellent interpersonal skills;
- Applicants should have strong conflict resolution and decision-making abilities, including the ability to think and interact strategically and innovatively while exercising sound judgment;
- Applicants should have the ability to network, build effective relationships, communicate appropriately, and represent the APC at meetings and other gatherings;

- Applicants should have extensive knowledge of the APC member communities, organizations, culture and traditions;
- Applicants should have a superior level of computer literacy;
- Applicants must possess a valid driver's license, have a vehicle, and be willing to travel when required; and
- The ability to speak and understand Mi'kmaw, Maliseet or Innu languages is considered an asset.

Salary: Depending on qualifications and experience

Location: APC Head Office in Cole Harbour, Dartmouth, Nova Scotia.

Start date: As soon as possible – March 31, 2018.

If you are interested, qualified and would like to be part of the APC team, please email in **Word or PDF format only**, the following documents:

- a detailed cover letter explaining how you meet the position requirements and salary expectations (please quote **APC competition #2017-06-03 on the cover letter and subject line of your email**);
- an updated resume;
- recent writing sample; and
- the names/contact information of three work related references.

All above noted information must be sent by **email only** by **4:30 p.m. (Atlantic Standard Time) on Thursday, August 17, 2017.**

Email address: hr@apcfn.ca

No applications will be accepted beyond the closing deadline. Interviews will be held in Dartmouth, Nova Scotia. If all qualifications are equal, preference will be given to persons of Aboriginal ancestry. While we appreciate the interest of all applicants, only those applicants selected for an interview will be contacted. No phone calls please. No interview or relocation costs will be provided.

Dear community members of St. Mary's First Nation,

I would like to take this opportunity to introduce myself. My name is Tim Plant, and as you may have heard, I am the new Consultation Coordinator for our community. The purpose of this letter is to provide some background information on myself and to describe my duty and commitment to you through my job position here with St. Mary's.

As for a bit of a personal background, I have recently graduated from the University of New Brunswick with a Bachelor of Science in Environment and Natural Resources with a Major in Water Resource Management. My work experience includes various environmental related work with both the federal and provincial governments, as well as other positions that may not seem as related, but have provided me with valuable and easily transferable skills. I also volunteer with environmental and watershed groups that aim to enhance the quality of the environment either through clean-ups, monitoring, or research. In addition to volunteering I also sit on a committee at UNB whose purpose is to bring more indigenous culture into the Forestry and Environmental Management faculty by adding more indigenous content into the curriculum and displaying our language and art in its halls.

Aside from past work and education, I am also a proud father of two wonderful children, ages 2 and 4. In my spare time, I like to write and record my own music, as well as enjoy the beauty and bounty of our land by hiking, biking, canoeing, camping, hunting, fishing, and "wild" food harvesting.

I have a deep personal connection to the land and I consider its long-term protection to be extremely important. Because of this, I am completely honoured to have been accepted for the Consultation Coordinator position and to represent St. Mary's in discussions with government. One of the purposes of the Consultation Coordinator is to be the main point of contact between government and industry, and the St. Mary's community in regards to environmental projects and the Duty to Consult. For that reason, input from you, the community, is crucial in deciding how we interact with government and industry and the types of questions we should be asking them. I am fully committed to providing you with the information you need to make informed decisions as well as raising your questions and concerns with the people who need to hear them. My goal is to apply the knowledge I gained from university and our community's knowledge, wisdom, and experience, in a way that helps both St. Mary's First Nation and the Wolastoqiyik nation as a whole when it comes to understanding the impacts of industry activities to our territory, and protecting our land and rights.

If you would like any information, or would like to raise any questions or concerns about environmental projects or the Duty to Consult, please do not hesitate to contact me and I will help the best I can. My office is within the St. Mary's band office and I am usually available during regular office hours for in-person conversations, although please call ahead of time in case I am in meetings. My office phone number is (506) 459-2200 ext. 126 and my email is timothyplant@smfn.ca. Thank you for your time and I look forward to meeting and working with you.

Respectfully,

Tim Plant

WNNB Update

The Maliseet Nation in New Brunswick (MNNB), which will soon be called the Wolastoqey Nation in New Brunswick, have recently hired a Geographic Information System (GIS) technician, an ethnohistorian and a human resource/finance administrator. There are also three Traditional Land Use co-researchers and a co-manager on contract for MNNB.

Currently, MNNB consists of:

- Consultation Director: Shyla O'Donnell (Shyla.Odonnell@wtci-nb.ca)
- Administrative Assistant: Brett Collins (admin@wtci-nb.ca)
- Ethnohistorian: Dr. Jason Hall (Jason.Hall@wtci-nb.ca)
- GIS Technician: Thomas Herbreteau (Thomas.Herbreteau@wtci-nb.ca)
- Forestry Advisor: Angie Paul (Angie.Paul@wtci-nb.ca)
- Environmental Impact Assessment (EIA) Coordinator: Deana Sappier (Deana.Sappier@wtci-nb.ca)
- HR/Finance: Sandra Polchies (Sandra.Polchies@wtci-nb.ca)
- Fisheries Biologist: Dr. Colin Curry (Colin.Curry@wtci-nb.ca)
- Traditional Use Study (TUS) Project Co-Manager: Natasha Sacobie (Natasha.Sacobie@wtci-nb.ca)

Inside this issue:

Sisson Mine Project Federal Approval

On June 23, 2017, federal approval of the Sisson Mine project was announced. The decision of the Responsible Authorities (Natural Resources, DFO and the Coast Guard) stated that:

"...after taking into consideration the Comprehensive Study Report and taking into account the implementation of appropriate mitigation measures, the authorities are of the opinion that the project is likely to cause significant adverse environmental effects that can be justified in the circumstances."

Model of Mine at 20 years (Northcliff Resources Ltd).

The decision also listed the mitigation measures required for the project (water resources, fish and fish habitat, human health, etc.).

The province of New Brunswick gave conditional approval in December 2015. Both federal and provincial approvals were required for the mine. The Sisson Partnership still needs to obtain permits for blasting, fisheries offset and meet the provincial approvals before it can operate.

The federal decision can be found at: <http://www.ceaa-acee.gc.ca/050/details-eng.cfm?evaluation=63169>

The provincial conditions are located at: <http://www2.gnb.ca/content/dam/gnb/Departments/env/pdf/EIA-EIE/sisson/ConditionsEIASisson.pdf>

NB Power Agreement

In April 2017, the Wolastoqey communities of Madawaska, Tobique, Kingsclear, St. Mary's and Oromocto signed a Consultation and Capacity Funding Agreement with NB Power. The Agreement is intended to foster a long term meaningful relationship between the Wolastoqiyik and NB Power. It also provides funding to assist the Wolastoqiyik in building in-house capacity to respond to NB Power projects such as:

- The Mactaquac Project,
- Grand Falls Development,
- Houlton Water Company International Power Line,
- Kedgwick Transmission Line,
- Fundy Isles Submarine Cable Replacement Project,
- NB Power/DFO Protocol Agreement, and
- Point Lepreau Generating Station.

The Agreement states that NB Power and the Wolastoqiyik will always engage with each other in good faith, honestly, and with as much transparency as possible. It notes a deep relationship between the Wolastoqiyik and the natural environment, as we see our role as caretakers for the environment and for future generations.

This Agreement does not provide Wolastoqey consent to any NB Power project. It is not an accommodation, nor does it discharge the Crown's duty to consult. Rather, the Agreement will promote meaningful engagement with NB Power on their proposed projects. Most importantly, it provides capacity funding so that we can analyze proposed projects, assess impacts on our rights, and share our concerns and information with NB Power and the Province, as well as our proposals for how to meaningfully accommodate our rights. NB Power also commits in the Agreement to seriously consider and respond to Wolastoqey information, concerns and accommodation proposals in a timely manner and on request present projects at community meetings.

Any community members wanting additional information regarding the Agreement should contact their community RDCC.

NB Power – Point Lepreau Licence Renewal

Image obtained from: <http://talknuclear.ca/tag/point-lepreau/>

On June 14, 2017, the Canadian Nuclear Safety Commission (CNSC) decided that:

“NB Power is qualified to carry on the activity that the licence will authorize. The Commission is of the opinion that NB Power, in carrying on that activity, will make adequate provision for the protection of the environment, the health and safety of persons and the maintenance of national security and measures required to implement international obligations to which Canada has agreed”.

Therefore, the Point Lepreau Nuclear Generating Station has received its licence renewal effective July 1, 2017 until June 30, 2022.

The statement by CNSC acknowledge that several Indigenous groups informed the Commission that the nuclear generating station was built on traditional and ancestral territories, and impacted Aboriginal and/or treaty rights, however CNSC stated that:

“...this licences renewal will not result in any changes to [Point Lepreau Nuclear Generating Station] operations, that the renewal will not cause adverse impacts to any potential or established Aboriginal and/or treaty rights and that the duty to consult was not triggered in this matter.”

The decision can be found at: <http://www.nuclearsafety.gc.ca/eng/the-commission/pdf/2017-05-10-SummaryRecordDecision-NB%20Power-PointLepreau-e.pdf>

NB Power – Houlton Water Company

The Houlton Water Company has requested NB Power to supply 22 MW of electrical power. The project would consist of construction of a new 15 km 69 kV transmission line within the Right of Way (RoW) of Route 95. This new line would tap the existing line on the west side of the Mednuxnekeag River. The Wolastoqiyik are undergoing a Traditional Use Study (TUS) to determine impacts on our Aboriginal and Treaty rights (field studies noted butternut trees in the area). It is anticipated that the Houlton Band will also be included in the TUS as there will be a 34.5 kV transmission line that will cross the board and continue approximately 2.4 km on the US side of the border to connect to the existing Foxcroft substation.

It is expected that an Environmental Impact Assessment will be submitted to NB Department of Environment and Local Government this summer. Depending on approval, NB Power anticipates RoW and substation clearing by fall of 2018.

Mactaquac Project

On December 20, 2016, NB Power publicly announced that it recommended Option 4 to the regulator, which would keep the dam going until 2068. Option 4 consists of either:

- a) Removing and replacing concrete in the most affected parts of the station; replacing/repairing certain mechanical and electrical equipment; or
- b) Stabilizing and replacing some concrete in the most affected parts of the station; replacing/repairing certain mechanical and electrical equipment and readjusting the position of equipment.

The “NB Power Mactaquac Project: Maliseet Nation Traditional Land and Resource Study” (completed September 2016) described Option 4 as a continuation of “*significant negative effects on Maliseet traditional land and resource use that have gone unmitigated for almost 50 years.*”

NB Power has still not decided whether they prefer Option 4a or Option 4b. Currently, they are exploring fish passage options for the dam. MNNB has reviewed technical reports from the Mactaquac Aquatic Ecosystem Study (MAES) to weigh in on potential options, as well as some preliminary community information from watershed sessions, but will be requiring additional community feedback in the coming months as NB Power wants to determine priority species by August 31, 2017. The Wolastoqiyik have not consented to NB Power’s decision to expand the life of the Mactaquac Dam. We have expressly reserved our right to challenge the project in court based on breach of our section 35 rights, including Aboriginal title, should NB Power fail to accommodate our rights satisfactorily.

Any members wishing to see the MAES reports should contact their community RDCC.

Forestry Advisor Update

Angie Paul, MNNBs Forestry Advisor has initiated monthly meetings with community forestry coordinators and RDCCs from the 6 Wolastoq communities. The goal of the monthly meetings is to discuss issues and priorities of each community to strengthen Wolastoqey interests individually and collectively.

Additionally, the Forestry Advisor, forestry coordinators and RDCCs have met with representatives of the Department of Energy and Resource Development (DERD) to discuss issues of priority. This was followed up with a letter to Minister Doucet which highlighted the following:

- Confirmation that the duty to consult and accommodate First Nations will be a part of DERDs plans going forward;
- Working towards co-management of New Brunswick forests with First Nations;
- An opportunity to revisit the First Nations allocation for Annual Allowable Cut;
- An opportunity to explore the establishment of, and support for a First Nations owned mill;
- Establishment of non-herbicide treated areas as designated by Traditional Knowledge and direct First Nation community engagement; and
- Increased First Nations employment at all levels within the forestry industry.

Proposed Mount Carleton Grooming Hub Update

The New Brunswick Department of Tourism, Heritage and Culture (THC) is proposing the development of a grooming “hub” at Mount Carleton Provincial Park to promote winter snowmobile tourism in northern New Brunswick. The project will promote snowmobiling on existing roads which are not used during the winter months. Project components include installation of a fueling station, construction of a new groomer maintenance shed, clearing brush from existing roads, installing signage and construction of a 900m bypass trail within the Park boundary. The Environmental Impact Assessment is available online at:

http://www2.gnb.ca/content/gnb/en/departments/elg/environment/content/environmental_impactassessment/1444.html

As a result of this the Wolastoqey Nation will be conducting a Traditional Use Study to help determine what the impacts are to our constitutionally protected rights. Anyone interested in participating in this study can contact their community RDCCs (see information below).

Interested in Environmental Field Monitoring?

The Wolastoqey Nation is looking to create a database of potential environmental field monitors, archaeological field monitors and persons interested in working in either field.

If you would like your resume to be included in the database, please send a copy of your resume to your community RDCC (see below for names). Please indicate in a general cover letter your level of experience and if you are willing to work throughout New Brunswick (or if you would like to stay within a certain region).

Contact Information:

If you have any questions about the content of this newsletter and would like more information, please contact your community RDCC.
