The Indigenous Student Advisor brings a strong knowledge of Indigenous post-secondary education and the funding, scholarships and bursaries available, and provides excellent assistance and encouragement to students in finding funding.

The ISA works with students and the College on cultural and social issues recognizing that students are individual and that their needs may not include a cultural component. Alongside, Indigenous Education staff, Training and Employment staff, and First Nations communities, the ISA maintains regular communication with students. This position requires excellent leadership, professional judgement, communication and organizational skills, as well as experience in helping roles, advocacy and resolving conflict. This is a unionized position where the terms and conditions of employment are in accordance with the New Brunswick Union of Public and Private Employees collective agreement (Administrative and Program Support Services Group) for the College.

Interested candidates must submit a detailed resume online by October 25, 2019. All applications will be acknowledged upon receipt.

Helpful Resources & Reminder

Qey naka good day Sitansisk!

I have spent a great deal of time researching appropriate educational pieces to send out to the community in hopes of gauging various needs and interests; however, until now, I had never thought to share these resources. A couple of really great websites I have found are:

1. https://woodgreen.org.uk/pet-advice

This website has everything! It has resources on what you need to know when getting a puppy, what you need to know when getting an elderly dog, what you need to know when getting a cat, how you can better care for your cat in the winter if it's an outdoor cat – this website offers endless resources!

2. https://www.petsafe.net/learn/11-tips-for-being-a-responsible-pet-owner

This website also offers tons of articles regarding responsible pet ownership, informational articles regarding training, health and proper play. One of my go-to websites!

3. https://www.avma.org/public/EmergencyCare/Pages/First-Aid-Tips-for-Pet-Owners.aspx

The particular page that this website is on is a wonderful referencing tool that I use often as I myself have dogs whom love to try to eat anything or everything so this website is one of my bookmarked website. It also offers helpful resources regarding various pet care, animal welfare and public health.

Something I struggle with is presenting information that would best suite the community, so if you have any ideas for newsletters or would like to see any specific information please feel free to reach out to me and I will ensure to include all requested information within future newsletters!

Complaints that I deal with regularly are usually one of two matters:

The first matter being Dogs barking constantly. Section 8. Excessive Barking; of our (not so newly implemented) Bylaw states that it is the Owner's responsibility to ensure that their Dog is not causing annoyance or disturbing any of their neighbour's peace. I can't stress enough that if you hear your Dog constantly Barking, you are not the only one so please being a responsible Dog Owner and bring the Dog inside, give the Dog a toy or bone or something to stimulate it as it is most likely barking to tell you that it's bored, or that something is wrong, so again, please be a kind neighbour and do not subject your fellow neighbors to YOUR barking Dog.

The second matter is Dogs at Large. This is something that we as owners must remain mindful of especially for our neighbours. Regardless of whether your Dog is an Aggressive Dog or not, it still has the potential to knock pedestrians as well as children over if running at Large. There are also other potential dangers such as other animals, cars, people treating the Dog running at Large unkindly, the list goes on. Please know that your Dog (or Cat) is YOUR responsibility as are the actions of your Animal – it is so very important to ensure you are tying your Dog's out properly, if you are unable to do so please take them out by leash, or at the very least do not let the Dog roam free with out the supervision of an ADULT.

I know that if we do our part as a responsible pet owner that we can contribute to a happier and healthier community for not only ourselves and our neighbours, but for our animals as well! 😊
