## Project Update and Timeline: Sewer Trunk Retrofit

Sitansisk has been informed by the City of Fredericton that the groundwork for the Sewer Trunk Upgrade and Retrofit project at the Old Reserve will begin today, starting with archaeological work including test pits and demarcation of areas which will be disturbed. A community Elder and a certified Archaeological monitor will be onsite for all excavation work to ensure no artifacts or other culturally relevant materials are disturbed. Below is the City's Scheduled timeline for the project.

### Week of July 14:

- Archaeological work begins, test pits to be dug and examined by archaeological monitoring team and community elder onsite. Permitting visits to occur once archaeological work concludes.

### Week of July 21:

- Preparation work for construction and retrofit, including groundwork for excavation.

### Weeks of July 28, August 4:

- City of Fredericton contractors to deploy a worksite adjacent to the property to minimize disturbances to the areas not affected by the work.

### Week of August 11:

- Excavation of 1950s sewer trunk to begin after trenching for modern replacement along less ecologically sensitive pathway concludes. After replacement, the City will take remediation efforts to restore and improve the property's surface.

Members are advised that for the archaeological and construction portion of the project, some of the Old Reserve may be cordoned off for safety. Our band will remain involved in the project throughout and has ensured sites of concern will not be compromised. See the image above, pulled from the community presentation prior to the referendum (which showed support for this agreement) for the altered routing (Old Path in Red, New Path in Yellow). The new route allows Sitansisk to install permanent infrastructure such as buildings or shade structures for pow-wow and other cultural uses. No rights nor land were given to the City of Fredericton in exchange for these upgrades, and the City has provided an additional 88 acres of developable land adjacent to our existing community in exchange for permitting this replacement project.

Sitansisk Lands & Infrastructure

# Logo Contest

Closing  
Date

**July 31, 2025**

Winner  
Announcement

**August 14, 2025**

Logo Usage  
Begins

**August 15, 2025**

*Eligibility*

*Guidelines*

*Prizes*

### STUDENT IMMUNIZATIONS REQUIRED BEFORE SCHOOL STARTS

As the new school year approaches, we kindly remind all parents and guardians that **students must have their immunization records up to date before the first day of school.**

In accordance with public health guidelines, proof of required vaccinations is **mandatory** for school attendance. This includes immunizations for:

- Diphtheria, Tetanus, and Pertussis (DTaP/Tdap)
- Polio
- Measles, Mumps, and Rubella (MMR)
- Hepatitis B
- Varicella (chickenpox)
- Any other vaccines required by local health authorities

#### **What You Need to Do:**

- Schedule any missing or overdue vaccinations with your family doctor or local health clinic.
- Submit updated immunization records to the school office **September 2, 2025.**

¶ **Note:** Students without up-to-date immunizations may not be allowed to attend school until documentation is provided, unless an approved medical or exemption is on file.

For questions or assistance, please contact the school at 506-462-9683 or St. Mary's Health Center at 506-452-2750

Thank you for helping us keep our school community healthy and safe!

Shelonie Cooley,

St Mary's Pharmacy Pharmacist Owner.

ATLANTIC POLICY CONGRESS  
OF FIRST NATIONS CHIEFS SECRETARIAT

**APC Employment Opportunity**  
***Fisheries Coordinator***

**Full Time Term Position Until March 31, 2026**  
**(With a possibility of extension)**

**Description:** Atlantic Policy Congress of First Nations Chiefs Secretariat is seeking an individual with experience in communications and climate change knowledge to serve as a Fisheries Coordinator.

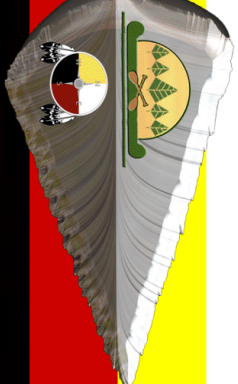

Reporting to the Director of Fisheries and Integrated Resources, the Fisheries Coordinator will work to strengthen the communal-commercial fishery capacity of First Nation member communities throughout Prince Edward Island, Nova Scotia, New Brunswick and Quebec, along with other fisheries initiatives by contributing as a valuable team member of the APC Fisheries Department.

Ideally, you have a post-secondary degree or diploma with relevance/experience in fisheries and industry management. This position will encompass a wide range of areas including: coordinating information services related to the Integrated Fishery Management Plans; preparing briefings on various issues (technical, environmental, economic, social, and management), supporting meetings, working groups and projects; and developing communication materials. The coordinator will represent the Fisheries and Integrated Resources Department with tribal organizations, Chiefs, community managers and federal partners.

On a personal level, you have well-developed communication skills (oral and written) and the ability to produce written communication material for briefing notes, reports, newsletters, meetings, and the website. You will have the ability to learn basic web-editing, graphics, MSOffice other digital communication tools. You are able to prioritize workloads and have experience with strategic planning. You will work in a team environment with both APC staff and partners from other tribal organizations and communities. Travel within the Atlantic and Gaspé region is required for this position.

A full position description is available upon request.
